

SEALER COLOR CHART

Signature SERIES

Protect and enhance your hardscape project with one of the many sealer products offered by Alliance.

To learn more, visit
AllianceGator.com

First test the product on a small, less-observed area of approximately 4 sq. ft. (0.4 m²) to ensure results meet your expectations. Expect final color, variation and shade (lightness-darkness) to vary in most instances. All concrete or natural stone exhibit variations, therefore the sample charts should be used as a general guideline only when selecting sealer type. Color matches cannot be guaranteed.
